Results at the Polls.

The returns to date show that Donald MacLeod has been elected by a majority of about 180 votes. A survey of the voting shows that George J. Bryan secured a majority of votes within the boundaries of the old Constituency. Candidate MacLeod was able to overcome this by the comparatively large vote polled by him in the newly added territory.

All political prognosticators to the contrary, the figures apparently show that Candidate MacLeod was the only one who could retrieve the fortunes of the U. F. A party in this Electoral District, which were said to have been at a low ebb for some time.

The voting in some of the polling sub-divisions shows—

	Bryan	MacLeod
Comet	80	15
Warden	32	48
Holborn	9	40
Hansens	3	24
Locknow	23	21

U.F.A. Candidate in West Edmonton Riding.

The possibility of entering a candidate in this Federal riding at the election July 28 is under consideration by the U.F.A. Col. Jameson has been nominated by Conservatives, and Liberals will shortly invite Hon. C. Stewart to stand for re-election.

West Edmonton U. F. A. Political Ass'n has issued calls to all United Farmer bodies in the Riding to send delegates to Onaway Sat. next, June 28, for the purpose of discussing what action is to be taken.

The Cooperative Convention

Arrangements are about completed for the Cooperative Convention to be held at School of Agriculture, Vermilion, July 3, 4, 5. Deputy Minister of Agriculture Craig chairman central committee, is sparing no pains to get the best speakers and those most thoroughly conversant with Alberta conditions, to lead in the discussion of the many sided field of Co-operation. Last year over 800 people attended the meetings in the School of Agriculture. From present indications, there will be many more who will enjoy the addresses this year. The meetings are free. There is a registration fee of \$1 for those who wish the privileges of the floor at the Convention and who wish to attend the banquet.

The Problem Of Markets

It may be poor consolation to the wheat producers of Western Canada, who are in a quandary over the problem of selling their product in the markets of the world at a price which will yield them a reasonable profit over the cost of production, to learn that they are by no means the only producers of a commodity used throughout the world who find themselves in difficulty of a like kind. And because the producers of these primary commodities are experiencing difficulty in finding markets, the makers of secondary and manufactured articles are also feeling the pinch and find themselves overstocked with goods which they cannot at the moment sell.

The situation which exists is not one that affects Canada alone, or any one commodity alone, but the whole world. It is a problem of over-production in the majority of cases. It affects not only the primary producers in all countries, and the manufacturers, but it reacts adversely upon every class of business and every individual. Because there is a glut of primary products the transportation companies are losing business, and in turn they are employing fewer men in their manifold departments. Merchants require less help because less goods are being sold, office staffs are reduced, and the resultant shortage of money and of buying power on the part of everybody has slowed up or put a temporary stop to building construction activities.

No country in the world is immune from this present condition. It is world wide, but, fortunately, Canada is less seriously affected than any other of the great trading countries of the world.

While Canada's problem is wheat, Brazil's is coffee. While other countries grow coffee, notably Java and Arabia, Brazil is the great source of supply. It has been steadily increasing production, as have other countries, growing more coffee than the world could consume. In order to prevent prices falling to a ruinous figure below actual cost, Brazilian Governments bought up the surplus and kept it off the market, to be released in years of a short crop. The result is Brazil now has sufficient coffee on hand to meet total world requirements for two years, with another big crop coming on. The financial strain has proven too great, and that country is now endeavoring to float a huge loan, \$100,000,000 or more, at a high rate of interest, and in doing so has given a pledge it will buy no more coffee, and will liquidate its present enormous holdings within ten years.

Sugar is in much the same position as coffee. In 1926-27 world production of sugar was placed at 23,750,000 tons, or about 300,000 tons less than consumption. The following year production exceeded consumption slightly, but in 1928-29 production jumped to over 27,000,000 tons, or far in excess of world requirements, while this year's estimates indicate a still greater production.

Cotton, too, joins the procession. In the last five years the United States produced on the average 40% more cotton than the average for the preceding ten years. The average for the ten-year period ending 1925, was about 11,000,000 bales; in 1926, about 14,000,000 bales were produced. Texas, formerly a great cattle ranching state, is now the greatest cotton producer among the states. Oklahoma is also going in strongly for cotton, and both states are using machinery, as against the old hand picking system, with a result similar to the revolution in wheat production through the introduction of the combine. One Texas farmer harvested 1,700 bales of cotton with five laborers, whereas under the system in the old cotton growing states 100 workers would have been required to plant and cultivate and 200 more to pick the crop by hand. It is estimated that Texas alone could produce twice as much cotton as present world needs.

Rubber, copper, tin, zinc, silk, and other basic commodities are all in the same class, production outstripping consumption, the increase in the latter not nearly equalling the increase in the former, and in regard to some commodities, silver for example, actually declining.

Coupled with this situation was the huge withdrawal of money and credit into the speculative stock market during the past two years, ending in the crash of some months ago. The effect was that farmers were deprived of their usual credit facilities, and this reacted unfavorably upon their retail purchasing, which, in turn, reacted upon consumption, consumption on manufacturing, manufacturing on labor, and labor on consumption. All business slowed up.

In the case of Malay rubber, Cuba sugar, Brazil coffee, the idea prevalent was that control of distribution was the same as control of production. As one writer says, there could be no greater mistake. Production is controlled by the direction and energy of human activity aided or retarded by forces of nature. Prices are arrived at by the relationship between supply and demand. If demand is greater than supply prices rise. If supply is greater than demand they fall.

In Canada, the source of national prosperity, it is now admitted, lies in the wheat crops of the West. World wheat production is steadily, even rapidly, increasing. The biggest problem, therefore, confronting Canada today, is to find a profitable, permanent market for its wheat. To the solution of that problem every Government, the Wheat Pools, farmers' organizations, manufacturers, merchants, citizens generally, must bend their energies and to it devote their best, most constructive thought.

Reduce the Acid

Black stomach, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. To prove this for your own sake, it may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

WAS WIDELY KNOWN

The Late F. B. Trautman

Death took a colorful figure from the railway and newspaper worlds of Canada recently, when F. B. Trautman, for many years press representative for the Canadian Pacific Railway, western lines, and dean of western publicity men, succumbed to a short illness in Misericordia Hospital, Winnipeg, "P.E.", as he was familiarly known in hundreds of newspaper offices throughout Canada and the United States, was in his 67th year. He leaves a widow and one young daughter, June.

After a long and varied journalistic career in the eastern states, Chicago and Canada, in which he filled every position from one at the compositor's case to the editorial chair, Mr. Trautman joined the Canadian Pacific Railway in Winnipeg, in 1912, under Sir George Burf, who was then vice-president, and inaugurated the first railway press bureau here.

Under a deliberately gruff exterior, the veteran press representative carried a remarkable fellow feeling for the young newspapermen, and many contemporary figures of note in the fourth estate owe their start or their success to his advice and help. It is partly on this account that few Canadian journalists were so widely known and admired.

Mr. Trautman was married to Miss Kathryn M. Ross, who survives, and who was at the bedside during his last illness.

DO YOU VALUE YOUR HEALTH?

If your health is poor; if you are pale, nervous and easily tired; if you suffer from headaches and backaches; if your digestion is bad you may depend upon it that these symptoms come from an impoverished state of the blood. That unless this condition is remedied a complete breakdown may follow. Dr. Williams' Pink Pills are a perfect medicine for any one in this condition. They enrich and purify the blood and thus promote health and strength.

Mrs. G. M. Andrews, Halifax, N.S., writes: "I always keep Dr. Williams' Pink Pills in the house. When I was a young, anemic girl they completely restored my health. After marriage my health broke down and once more these pills brought me back to health. My friends all tell me how well I look and for this Dr. Williams' Pink Pills deserve all credit."

You can get these pills at all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Everything Special

A special carpet in two shades of pink was woven for the June wedding of Miss Gasquet, heiress of the Woolworth millions. A gardener grew roses of the same shade as her dress, and a designer specially studied Miss Gasquet, in order to "absorb her personality," before designing her wedding dress.

Douglas' Egyptian Liniment is a quick, certain remedy for Hoof, Rot, or Thrush. Four or five applications are usually enough.

All Branches Represented

All branches of organized activity in the Province of Manitoba were represented at a meeting in Winnipeg, when plans for Manitoba's diamond jubilee celebration on July 15th were launched. The celebration will commemorate the 60th anniversary of the province's entry into confederation.

Minard's Drives Away the Headache.

W. N. U. 1243

Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Women Who Work

Modern Devices Have Not Altogether Eliminated Work in the Home

By some persons whose knowledge of housewives is limited those important members of society are supposed to have been relieved of the necessity of doing any physical work. Excessive feminine indulgence in amusements is assumed to be the sorry result.

Systematic inquiry shows a very different state of things. The bureau of home economies in the Federal Department of Agriculture reports that in country districts and in cities of less than 50,000 population women work in their homes considerably over forty-two hours a week, while the average among thousands of women questioned is fifty-one hours a week.

Plainly, vacuum cleaners, electric washing machines, telephones, canned goods, delivery service and all the rest of the time saving and labor-saving devices have not reduced the housewife to demoralizing idleness. She is not yet threatened with ennui. There is no great danger of her finding too much leisure on her hands. Worse over her mental and moral condition in her supposed state of freedom from toil is, to say the least, premature—Chicago News.

Relieves Asthma At Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All incipient, and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Solved His Problem

A visitor from Aberdeen at a Liverpool hotel inquired about the board charges. The figures being rather high, Sandy exclaimed: "How much do you charge for garaging my car?" "No charge whatever," he was told. "Well, then," decided Sandy, "I will sleep in my car tonight."

The Philippines are to have a chain of hotels.

More Remaining in Canada

Scientifically Trained Men Not Leaving In Such Large Numbers

A radical decrease in the number of scientifically trained men who find it necessary to leave Canada for employment was cited by Rev. Dr. H. J. Cody, chairman of the board of governors of the University of Toronto, in an address to the Canadian Manufacturers' Association there. Dr. Cody spoke of the work of the Technical Service Council, an organization founded in 1927. During the past year, 1,000 applications for trained men had been received, and 550 graduates had been placed in key positions in Canada. Since 1925 the percentage of the graduating class of Toronto University leaving the country had been reduced from 27 to 3 percent.

Stop The Cough. — Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

British Stock For Canada

If this Empire is to remain a British Empire and its practice and its institutions are to remain British, the British stock must be increased to keep pace with other stock which is flowing into the vacant spaces. So far as Canada is concerned there are two ways of doing this—by assimilation and by the injection of new British stock. Both processes should be worked simultaneously.

Falling Hair

Use Minard's before it's too late. It checks falling hair and stimulates new growth as well. Apply persistently to scalp four times a week.

Foods Stay Fresh Longer This Way

Covered with Para-San Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-San in the handy, sanitary, knife-edged carton at grocery, druggist or stationer. For less exacting use get "Centre Plac" Packs in sheet form.

Island Falls Plant Now Supplying Electric Energy In the Northern Hinterland

Saskatchewan's first hydro-electric plant has commenced operations.

Three generating units at Island Falls are in use and power is being transmitted on a 58-mile pole line to the mining town of Flin Flon, on the Saskatchewan-Manitoba border.

Inauguration of the hydro project in the northern hinterland marks an important milestone in Saskatchewan mining development.

When the Whitney interests took up their option on the important Flin Flon claims on December 1, 1927, development was started that has already involved expenditure of close to \$25,000,000. Included in this was the building of a border mining town which now has a population of nearly 3,000, and the building of a 90-mile railroad across the muskeg from The Pas to the Flin Flon site.

The Hudson Bay Mining and Smelting Company, Ltd., sponsored by Jack Hammill and the Whitney interests, cast about for sufficient power to operate an electric smelter at Flin Flon, Manitoba power sites were passed up in favor of the Churchill site at Island Falls in Saskatchewan, a distance of 58 miles from the townsite of Flin Flon.

Winter roads were cut through the forest from Flin Flon and in 40 and 50 below weather an almost continuous train of caterpillar tractors tore through the bush to deliver thousands of tons of cement and supplies to the Island Falls site.

Traditional methods of forest freighting were thrown into the discard and history was made that winter. The speed of the operations alone rivalled the mammoth proportions of the entire undertaking.

There are now electric lights at Flin Flon, one of the most up-to-date towns in the northwest, just as there have been electric lights in the modern settlement of Island Falls for some months past.

The Island Falls and Flin Flon power and mining projects have led the way for history-making development in northern Saskatchewan and Manitoba and other undertakings have closely followed that commenced by the Whitney people.

The Sherritt-Gordon mines at Cold Lake is one of the other big projects, while in Saskatchewan the Consolidated Smelters, Nipissing Mines, Churchill Minerals and Dominion Explorers have done a great deal of exploration and development work.

Other mine undertakings are expected along the Churchill, where ore bodies of rich values have been found close to power sites. While 86,000 horsepower has been harnessed at Island Falls there is in addition to that, nearly 500,000 horsepower available in easy access of important discoveries in Saskatchewan mining regions with less than prospectors.

Inauguration of the Island Falls transmission line has come several weeks earlier than was expected when the Hudson Bay mine firm held its annual meeting some months ago.

May Not Be Superstition

Writing in the British Medical Journal, Dr. Ross Jordan recalls the good old army adage that tattooed men are protected against infectious tropical diseases and raises the question of whether this is merely superstition "or does the impregnation of the skin by these dyes really afford any protection."

"And for this I've been paying my sub to the Society for Protection of Animals and Plants for seventeen years."—Gutterick, Madrid.

W. N. U. 1843

What Canadians Eat

In Many Respects They Are Best Fed People In World

Figures given in the monthly publication of the Royal Bank of Canada, as to food consumption in this country indicates that in many respects Canadians are the best fed people in the world.

Some of the statistics, especially those dealing with dairy products, show an increase in consumption that is little short of amazing.

Take butter for example. The figures quoted prove that Canadians in 1928 consumed 29 pounds per capita, an increase from 24 pounds in 1920.

It takes 450 million gallons of milk to satisfy the Canadian demand for this product, the consumption amounting to a pint a day for every man, woman and child in the country.

Since 1920 the requirements of the home market for whole milk, cream, butter, cheese, and ice cream have resulted in increased consumption of 143 million pounds of butter fat.

We eat twice as many eggs now as we did in 1920 and our consumption of poultry has increased from seven to ten pounds per capita.

Similarly we are disposing of a much larger quantity of pork, the consumption of which has increased from 560 million pounds to nearly 800 million pounds, which figures out as an increase from 65 to 81½ pounds per capita.

On the other hand beef consumption shows only a small increase and there has been a falling-off in the quantity of mutton and lamb consumed.

Lumber In Transit

Checking Up Moisture Content Of Pacific Coast Lumber When It Reaches Eastern Canada

An interesting study being carried out at present by the Forest Products Laboratories of Canada, Department of Interior, is the behaviour of lumber in transit from the Pacific Coast. The Vancouver laboratory has arranged to place in carloads of lumber consigned to Montreal and Ottawa a number of boards, the moisture content of which was determined in Vancouver. Through co-operation with eastern consignees, the Ottawa and Montreal laboratories have been checking up these moisture contents on arrival in the east, to determine the amount of moisture absorbed in transit.

What We Call Diplomacy

The admiral who was conducting an examination for the navy, was addressing one of the candidates: "Who, in your opinion, are the three greatest sailors in British history?" he said.

"I'm sorry, sir, I didn't catch your name when I entered the room," replied the student, "but the other two are Nelson and Drake."

"Oh, why was I ever brought up to be a writer?" sighed the cub to his fellow reporters.

"You weren't!" came the unexpected reply of the city editor.

(By Annette W. Whittington).

3267

A practical everyday dress in printed rayon crepe with simple bodice rather fitted through the waist with the attached circular flaring skirt showing extremely flat hips. Seaming of waist and skirt marks the normal waistline.

It achieves a modern note through the cascading jabot frill that starts at right shoulder and terminates at left hip, which is plain crepe in the lightest tone of the print. The collarless neckline is finished with applied band of plain crepe.

Style No. 3267 is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It is easily made, for the circular skirt is in two sections and seamed at sides and stitched to the two-piece bodice that has been closed at sides and shoulders.

Crepe satin is effective with the jabot frill and neck band made of the dull side of the crepe. Black silk crepe with eggshell silk crepe, bottle green faille crepe, dahlia purple canton crepe, and feather-weight woolen in yellow-beige and brown, with plain brown woolen are chic combinations.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

European Countries Showing Strong Disposition To Curtail The Importation Of Wheat

Advocate World-Wide Crop News Service

Would Aid Marketing By Circulating Expert Knowledge

Creation of a world-wide commercial intelligence service to be used in collecting expert crop and market information on all lines of agricultural products was discussed by E. M. H. Lloyd, assistant secretary of the Empire Marketing Board, and Dr. J. H. Grisdale, deputy minister of agriculture, and Canadian representative on the executive council of the imperial agricultural bureau, a sub-committee of the board.

Mr. Lloyd, who is touring Canada in the board's interests, admitted that the creation of such a corps and the dissemination of such timely and expert knowledge has been a matter of consideration by the Empire Board for some time. It might be discussed, he said, at the forthcoming economic conference. Expert agriculturists, schooled in the collection of marketing and crop conditions, would be maintained in practically all countries of the world if the plan were set in operation. These reports would be collected in one central depot and from there distributed all over the empire.

Such a scheme, Mr. Lloyd believed, would be of great assistance to the Canadian wheat pool and other co-operative marketing organizations.

Mr. Lloyd, who is touring Canada to acquaint himself with Dominion products and conditions, believed that many industries would be aided in finding markets within the empire through the board.

"There is an ever-increasing public opinion in Great Britain to use empire products," he said. Through the efforts of the marketing board, empire products that were practically unknown or at least were limited in their use in Great Britain, have been brought to the attention of the people, with attendant increases in sales.

Remember Your Home Town

Pay Old Friends a Visit As Often As Possible

Many railroads today are advertising excursion rates over the weekend so that city dwellers may go back to the old home town for a brief vacation. Immersion in business, coupled with a crowded calendar of engagements, should not deter a man from closing his desk Saturday noon that he may board a train or an automobile bound for the familiar scenes and the loyal friends back home. Character and success are often developed by the friendly atmosphere of the village. To forget the home town is to rob life of one of its most satisfactions.

A Non-Skid Tie

The non-skid necktie has made its appearance in France. Sheets and threads of rubber are put together to form either the four-in-hand or bow tie, and these are vividly colored to suit the wearer's taste. It is said that the ties will last longer because they will not fray or wear out, but it is not said whether or not they will stretch out of shape.

The Farmer's Sun says: Whether as a reaction to the efforts of the wheat pools and the United States farm board to "stabilize" prices, or whether it is purely to encourage domestic agriculture, a strong disposition on the part of importing countries to lessen their dependence on outside sources for their future supplies of wheat is now quite evident. The new tariff on wheat recently put into effect in Germany amounts to approximately seventy-eight cents a bushel. There is also a substantial increase in the duty on wheat flour, while that on oats is increased fifty per cent. and on barley one hundred per cent. The inference is that Germany, a large importer, proposes to buy less abroad in future, Russia, authentic reports indicate, is pursuing its program of agricultural socialization, which involves the expropriation of two million hectares of collectively operated farms and the use of one hundred and twenty thousand tractors, at such a terrific rate of speed, that though the original plan called for the breaking up of half a million privately owned farms, already between a million and a million and a quarter of them have been dissolved, and it has been found expedient to call a halt. So strong has been the movement towards collective farming, it is reported, that it has assumed the aspects of an avalanche, the peasants falling over themselves in their desire to participate. At the present rate of progress it is estimated that the end of the five-year period will see fifty per cent. of Russian agriculture operated on a collective basis, instead of twenty per cent., as had been planned. Italy has embarked upon a well detailed long time program designed to increase the domestic food production, while Brazil, having failed in her attempts to "stabilize" the coffee market by government restriction, is attempting to interest planters in the growing of wheat. These are ominous signs which Canadian agriculture cannot afford to ignore.

Tests Not Complimentary

Shown Large Proportion Of Collegiate Students Are Poor Spellers

Tests of spelling made recently at two of Toronto's collegiate institutions were not complimentary to the students, nor were they satisfactory to the public. At one institution, out of 131 who were examined, only 85 were pronounced good spellers, less than half that number were fair, while 38 were either poor or bad. At the other, out of 157 who were examined, 62 were found to be good spellers, but an exactly equal number were either poor or bad, and only about one-fifth of the total were fair. Spelling is one of the rudiments of education and the poor showing made in these tests explains the disappointment and even irritation often felt by employers of young people. The authorities should inquire why so large a proportion of students are deficient in a study so important as spelling.

Presented Had To Be Returned

The Duchess of York, following a rigid rule of the Court, has returned innumerable birthday presents received for the little Princess Elizabeth from people unknown to her. Presents sent anonymously have been given to hospitals.

He: "I've lost nearly all my hair, thanks to your hair dye."
She: "But, you've taken the wrong bottle. That's a remedy for removing hair from the chin."—Rolly Half Tunna, Götterburg.

Some Prize Winners at the Provincial Exhibition, Regina, 1929

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, likewise relieved. Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleaned of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c pkg. of Carter's Little Liver Pills.

WORLD HAPPENINGS BRIEFLY TOLD

Death has removed one of Britain's famous sportsmen, the Earl of Sefton, owner of the Grand National race course at Aintree. He was 59 years old.

Authoritative private advice to the United Press from Moscow, said all the Soviet's spring wheat sowed up to June 10, amounted to 22,176,000 hectares (about 55,550,000 acres).

E. W. Beatty, president of the C.P.R., said his company had a site in mind for their projected London hotel, England, but not the Hotel Cecil as had been rumored.

The sudden overflowing of the Lena River in this eastern section of Siberia has swept away 346 homes and 20 other buildings. Many cattle were drowned and other damage was heavy.

Dionneux Coats, famed French flyer, has been awarded the medal of the International Aeronautic Federation for the most noteworthy achievements of the year in aviation.

Searching among the drawers of an old sideboard, William Bonnell, of Montrose, Colorado, found an old newspaper giving an account of the death and burial of George Washington.

About the time when airplanes will be landing on every apartment house roof or in the commuter's back yard, science will have aided in perfecting an automobile that won't wear out. One British firm has perfected a steel so hard it cannot be scratched with the sharpest file.

Plans are being discussed at Windsor, by the Border Chamber of Commerce, for a good will business and pleasure trip through western Canada, possibly late in August or early in September. It is expected that the tour will be open to other than chamber members.

Persian Balm is the one true family aid for skin health and beauty. Adds the mother in additional loveliness. Protects the tender skin of the child. Delights the father as a hair fixative or cooling shaving lotion. No matter to what use it is put, it is always beneficial to the skin. Every woman should use it. Persian Balm cures and cures the skin and creates complexion of surpassing loveliness.

Farmers in Public Life

The Farmer's Advocate says: "Farmers are getting a grip on things politically. Honourable Walter Lee, a farmer in Prince Edward Island, is now Premier of his Province; Honourable John Brecken, a trained agriculturist, is Premier of Manitoba, and his Honour J. D. McGregor, a noted breeder of Aberdeen-Angus cattle, is Lieutenant-Governor of the same Province."

Use Minard's for Rheumatism.

A Long Felt Want
"Men who desire such dilutions," says the Rev. C. E. Macartney, D.D., "can drink decaffeinated coffee and smoke decaffeinated tobacco, and now we have on every hand decaffeinated Christianity." But up to the hour of going to press, there seemed to be no hope for decaffeinated decaffeinated elections, and decaffeinated weather. Nor even for decaffeinated taxes.

**KIDNEY TROUBLE
BACKACHE VANISHED**

It's the only way to get rid of kidney trouble, backache, rheumatism, bladder trouble, and all the ills that come from a weak kidney. It's the only way to get rid of kidney trouble, backache, rheumatism, bladder trouble, and all the ills that come from a weak kidney.

Manitoba Jubilee Impressions

Celebrations in July To Mark the Sixtieth Anniversary of Manitoba's Admission Into Confederation (By Old Timer)

Men who have lived in Manitoba since the early days, and especially those who were born here, love to recall the various fights or squabbles in which the Province was involved during the first half-century of its separate existence. Most of the questions raised in the stormy days found their origin in the well-known constitutional fog which seems to have always surrounded the relationship of a Province, particularly a new one, to the Federal authority. The learned Solons who drew up the British North America Act, as well as the more or less wise ones who carved it up before it became law, failed to take into account many of the big problems that have developed since. For that reason they were unable to lay down in plain words the points of distinction between the respective jurisdictions. Many and varied were the legal and political battles that ensued. The present differences are so mild that by comparison it might almost be said that negotiations are now conducted in silence.

When the Canadian Confederation was established in 1867, four diverse units of British territory in the north-eastern section of the continent agreed to come together and forget, as far as possible, their differences. Since they all retained the provincial status, however, with the necessary, and also some unnecessary, governmental machinery in each case, there was still plenty of room for argument. If the Fathers of Confederation (who rightly received so many tributes during the Jubilee celebration three years ago), could not adjust the situation between the Federal jurisdiction and that of the four units which had been established for generations, how could they be expected to foresee and care for problems relating to a new territory subsequently taken into the union? It simply wasn't done, for the reason that it couldn't be done.

The Diamond Jubilee celebrations through the Province on July 15 next, are intended chiefly to mark the sixtieth anniversary of the admission of Manitoba into Confederation, and there is no doubt they will in every case be worthy of the occasion. When the event actually took place in 1870, there was much shaking of heads, particularly in the East, about the wisdom of the step. A review of the litigation (who rightly received so many tributes during the Jubilee celebration three years ago), could not adjust the situation between the Federal jurisdiction and that of the four units which had been established for generations, how could they be expected to foresee and care for problems relating to a new territory subsequently taken into the union? It simply wasn't done, for the reason that it couldn't be done.

From the standpoint of material advancement, the most important battle was that in connection with the boundaries. When the Province was instituted in 1870, it was a tiny affair, and was facetiously likened to a "postage-stamp." After a little more than ten years of discussions the Government headed by Sir John MacDonald at Ottawa, arranged to have the boundaries greatly extended. Indeed, under the proposed scheme a large section of what is now Western Ontario, including the town of Rat Portage (Kenora), would have come under the jurisdiction of Manitoba. But the Ontario Government, under the leadership of Hon. Oliver Mowat, saw a fine chance to raise a commotion, and it was duly raised. When the smoke and haze of legal action had cleared, it was found that the Mowat Government had won

ZAM-BUK
Clears The Skin Of
ECZEMA & RASH

Disinfects, Moisturizes & Soothes

out; and Manitoba's eastern boundary was fixed in its present location. There was no Mowat to interfere with the westward extension, so that the boundary was pushed out about 130 miles without difficulty. Finally, in 1912, a large and important section in the north was added, giving the Province a long stretch of seaboard on Hudson Bay, including two possible ports, Nelson and Churchill. The telling about this boundary fight is simple enough, but a large volume would be required to record the history in detail. The same is true of the other disputes, some of which made or unmade political reputations in various parts of the country. The sequel has been that Manitoba has come to symbolize the protection of Western rights and Western interests. She has played and is still playing an important part in the affairs of Canada.

Food For Babies

Food Question Is a Serious One In the Hot Days of Summer

Hot summer weather is very trying on babies and the food question is a serious one every mother must solve correctly if her infant is to avoid ailments common in this period. Breast feeding is obviously best for baby, but it happens in many cases that this is impractical. Rather than experiment with all sorts of foods it is wise to use one that is known for its value as an infant food. Eagle Brand Condensed Milk has been used continuously since 1857 and is highly recommended by leading physicians as a safe, pure, easily digested food for bottle-fed babies. It is simply pure milk and pure granulated sugar. Feedings are easily made up according to directions on the can. Eagle Brand is especially satisfactory in difficult feeding cases. Frequently it agrees perfectly with babies who cannot assimilate any other food. Mothers who would appreciate a very helpful booklet on the care and feeding of baby may obtain a copy of "Baby's Welfare" from the Borden Co., Limited, Montreal, free. If they mention this paper when writing.

Prevented By Law

"You are suffering from brain fog and ennui," announced the specialist. "You should take more interest in your business." "I should like to," replied the patient. "Then why don't you?" demanded the specialist. "The law won't let me," replied the patient. "I'm a pawnbroker."

SUNDAY SCHOOL LESSON

JUNE 29

ATTEMPTS AT APPRAISING CHRIST

Golden Text: "Thou art the Christ, the Son of the living God."—Matthew 16:16.

Devotional Reading: Isaiah 2:2-4.

Explanations and Comments

In the triumphal procession of the Roman conquerors, kings and princes walked as captives in the emperor's train. Thus all the greatest men of the past generation seem to have joined Christ's triumphal procession. Let us call the roll of the great. Among Carlyle's last words were these: "The most important event ever transacted in this world is the life and death of the Divine Man in Judea, at once the symptom and cause of innumerable changes to all races in the world." By acclamation, John Ruskin will be voted the first place among the English prose writers of the last two centuries. But Ruskin says his life "has been dedicated not to the study of the beautiful in face and flower, in landscape and gallery, but to an interpretation of the truth and beauty of Jesus Christ." Another great name is Matthew Arnold: "Christ came to reveal what righteousness meant, not to impose it, not to do, except righteousness; and his other conception of righteousness was to accept righteousness of it. His method and secret." James Martineau asserts that Christ must be loved "the greatest of the human race. The world has changed and that change is historically traceable to Christ." We all know that Shakespeare, perhaps the greatest intellect ever known in its wide and many-sided splendor, paid the lowliest respect to Christ in passages after passage. All the great poets of our age, Longfellow, Tennyson, Keats, Browning, and many others, unite in saying: "Thou seemest human and divine; The highest, holiest manhood thou; Our wills are ours, we know not why; Our wills are ours to make them Thine."

Newell Dwight Hillis, in "The Influence of Christ in Modern Life," says: "The art of swimming is so agreeable and so easily mastered and the places where it is taught by competent teachers are now so numerous in our cities that even urbanites ought not to grow to maturity without being able to do what any poor fish can. Country youth generally finds a 'swimmin' ole' and teaches itself."

The owner of a popular brand of car was having trouble in starting his engine. After waiting for ten minutes the man wrestle with the starting handle a little boy asked his father: "How far will it go after he has finished winding it?"

Is Easily Mastered

The art of swimming is so agreeable and so easily mastered and the places where it is taught by competent teachers are now so numerous in our cities that even urbanites ought not to grow to maturity without being able to do what any poor fish can. Country youth generally finds a 'swimmin' ole' and teaches itself.

The owner of a popular brand of car was having trouble in starting his engine. After waiting for ten minutes the man wrestle with the starting handle a little boy asked his father: "How far will it go after he has finished winding it?"

PILE PAIN

Ends in 1 Minute
"Racked with pain and pain of piles is relieved with 'Pile-Ex' ointment."—L. T. Sears, "Bleeding Stopped, Piles Vanished, Avoided Amputation. One instant results today. All Druggists."

Motor Fuel in Western Canada

Unlimited Quantities Can Be Commercially Produced in Northern Alberta

Gasoline in almost unlimited quantities can be commercially produced from oil sands in Northern Alberta, according to Dr. E. H. Boomer, of the University of Alberta, addressing the National Research Council. A new method which yields light oils suitable for the production of gasoline is credited to Dr. Boomer and Dr. A. R. Clark, also of the University of Alberta; and a semi-commercial plant, now in operation, shows, it is said, that Western Canada, at least, will shortly be independent in the production of motor fuel.

Chinese Children Starve

More than 200,000 children have died of famine in Northern China since January, according to Commissioner MacKenzie, of the Salvation Army. The Commissioner, who recently returned to Australia from China, said that 50,000 Chinese wives and daughters had been sold for \$2 or \$3 each to provide food for the remainder of their families.

The female mosquito is not only the one that stings but the one that stings.

The ordinary person's lungs contain 76,000,000 air cells.

SALADS

THIS DRESSING:
2 eggs, beaten until light
1 teaspoon salt
1 teaspoon mustard
1/2 cup vinegar
1/2 cup oil
1/2 cup sugar
1/2 cup lemon juice
Dash of pepper

Vigorously beat first four ingredients a few minutes, add vinegar and lemon juice, stir well and set aside for hours to thicken. Will keep for weeks.

BALDWIN WILL NOT CONFER WITH PRIME MINISTER

London, England.—It is understood that Rt. Hon. Stanley Baldwin, Conservative leader, has declined to accept the invitation of Prime Minister Ramsay MacDonald to participate in a conference of the three party leaders on the emergency problem of unemployment.

Mr. Baldwin's reply was sent to the Prime Minister after consultation with leading Conservatives.

These advisers, it is said, took the view that Conservative abstention from the conference would not prevent the Government from introducing to the House of Commons any measures they might evolve to meet the critical situation. The Conservatives pointed out that these measures, should they win the support of the Rt. Hon. David Lloyd George and his Liberal followers, Mr. Lloyd George having pledged co-operation in any "sound and effective" legislation, would be passed by the House.

The Conservatives feel the present Government is incapable of dealing with unemployment and resent Mr. MacDonald's refusal to allow the opposition access to official data on the present condition of trade, industry and unemployment. With insufficient material to go upon, the Conservative chief said, the party could not promulgate any constructive action, as it would like to do, but must be merely a rubber-stamp for the Labor Government's plans.

Sir Austen Chamberlain opened the Conservative attack. He twitted Mr. Lloyd George for his recent "wool"ing" of Mr. MacDonald. "But the Prime Minister," Sir Austen added, "has been rather odd."

"The leader of the Liberal Party," Sir Austen exclaimed, "has shown a desire to share the power of the government without a readiness to accept the responsibility, while the Prime Minister wants to share the responsibility and still retain the power."

The Conservative speaker charged the government was barren of a policy regarding unemployment, and barren of a policy on Empire trade. Yet the Dominions—the latest example came from Canada—had shown that in cases where they could not fill their own needs, they would rather buy from Britain than from the outside world.

Opening Campaign In B.C. On July Fourth

Premier King Will Hold First Meeting At Revelstoke

Vancouver, B.C.—Senator J. H. King announced here that Prime Minister Mackenzie King will open his election campaign meetings in British Columbia on Friday, July 4, when he will speak at Revelstoke on his way to the Pacific coast. The prime minister will arrive in Vancouver on July 6, and proceed to Victoria where he will address the electorate on Monday evening, July 7. On July 8 he will speak in Vancouver, and on Wednesday, July 9, in Kamloops.

Chicago Gang Rule

Will Make Thorough Investigation Of Police Department

Chicago, Ill.—A thorough investigation of the Chicago police department and its failure to cope with the rule of gangsters was ordered by the city council at its first session since the assassination of Alfred "Jake" Lingle, Tribune reporter, nine days ago, to focus attention on crime.

Mayor William Hale Thompson announced that John H. Alcock, the "iron man" of the force, would remain at the helm of the police department indefinitely.

Exempt From Income Tax

London, England.—Consular employees and other official representatives of foreign governments in Great Britain will continue to be exempt from British income tax, according to a finance bill provision which passed the committee stage of the House of Commons recently.

W. N. U. 1843

Will Pay Portion Of Freight Rates

Government To Assist In Shipments Of Lignite Coal

Ottawa, Ont.—The Dominion government will pay 50 cents per ton of the freight rates on all Saskatchewan lignite coal shipped into Manitoba during the next year, according to an order-in-council made public by Hon. Charles Stewart, Minister of Interior.

Another order-in-council provided the payment by the government of one-eighth of a cent per ton on all shipments into Manitoba of coal mined in Alberta or in the Crow's Nest Pass district of British Columbia.

The special rates are put into effect from June 1, 1930, to May 31, 1931. They are to apply to all coal used for industrial purposes, but not when the coal is for use on railway locomotives or for domestic fuel.

The order-in-council respecting Alberta and British Columbia coal supercedes another order-in-council passed a week ago which provided assistance of one-fifth of a cent per mile for coal from the Crow's Nest Pass area and the bituminous areas of Alberta. The new order extends the favored area to the whole province of Alberta and the rate is altered to one-eighth of a cent.

Officials of the Dominion Fuel Board explained that the 50 cents per ton to be paid by the government is expected to remove the advantage enjoyed by United States mines over those in Saskatchewan in the way of freight rates. Coal from over the border could be carried to the Manitoba border cheaply, it was stated, on account of the water route between Lake Erie and the head of the lakes.

In the same way the assistance being given to British Columbia and Alberta coal is expected to remove obstacles to its use in Manitoba.

Plans May Be Changed

R-101 Likely To Make Trip To Canada Instead Of R-100

Ottawa, Ont.—Cables from London, England, intimating that the trip from Britain to Canada would be made by the dirigible R-101 instead of the R-100 as was previously planned, has not been officially confirmed by the Department of National Defence which has the Canadian end of the arrangement of the trip in hand. However, local air circles would not be surprised if the switch from one of the big ships to the other were made. Unofficial reports arriving here from England recently have rather favored the R-101.

Convention Date Changed

Canadian Good Roads Association Meets In Quebec In September

Montreal, Quebec.—Dates of the annual convention of the Canadian Good Roads Association, to be held in Quebec, have been changed to September 16, 17 and 18. In announcing the change, George A. McNamee, secretary of the association, stated that the Province of Quebec, through Hon. J. E. Perrault, K.C., Minister of Highways, is anxious that the visiting delegates should see the picturesque Gaspé Peninsula, in all the glory of its fall coloring, by the new highway.

Storms Damage French Crops

Cattle Killed By Lightning And Small Animals Drowned

Paris, France.—Storms which raged for several days over widely scattered parts of France severed highways and railroad communications, wrecked homes and damaged crops.

Lightning killed cattle, and flood waters drowned smaller animals in the Burgundy and Auvergne regions and north of Paris. Crop damage is reported to be heavy.

Succeeds Late Dean Rutherford

Saskatoon, Sask.—Professor A. M. Shaw, head of the Animal Husbandry Department at the University of Saskatchewan, has been appointed dean of the College of Agriculture in succession to Dean W. J. Rutherford, who died three weeks ago. It was announced by Dr. W. C. Murray, president of the university.

Latest picture of Prince Carol of Roumania, who has ascended the throne of Roumania.

Storm Creates Panic At Ascot Race Meet

Well Known Bookmaker Killed By Bolt Of Lightning

Ascot, Eng.—Panic swept through the throng of Ascot race meeting when a sudden, terrific electrical storm broke over the enclosures and a bolt of lightning struck and killed Walter Holben, well-known north of England bookmaker, in "Tattersall's" betting ring only a few yards away from the King and Queen and their royal guests.

Society women, caught in a rush for shelter when a deluge descended upon the throng, were thrown to the muddy ground and trampled under feet.

Hats were knocked off, parasols were lost and some of the women arrived at the stands without their slippers, which had been left behind, stuck in the mud or torn from their feet.

The King and Queen, accompanied by the Prince of Wales and escorted by many of their guests at Windsor Castle, had arrived in motor cars and were in the royal box when the storm occurred.

Effect Of Crisis In U.S.

Communist Papers Refer To Economic Conditions In America

Moscow, Russia.—Communist newspapers declared that the United States was paving one of the worst economic crises in its history.

Pravda, one of the organs of the Communist party, said the latest Wall Street slump was merely a prelude to a more destructive and dangerous drop.

"America's general industrial crisis," said the newspaper, "has been followed by an agricultural crisis of unprecedented depth and seriousness which sharply decreases the purchasing power of the farmers. The danger of a new war among the imperialist countries, and especially against the Soviet Union, assumes a greater reality than ever."

Lumber Shipments Delayed

Cars Of Canadian Lumber Are Held Up At Border On Account Of New Tariff

North Portal, Sask.—The new United States tariff now in effect, has resulted in a number of cars of Canadian lumber being held on the Canadian side of the border pending the receipt from Washington by United States customs brokers of more explicit information as to the application of the new tariff. Heretofore Canadian lumber of every description was admitted free, but under the new tariff countervailing duties will apply, the Canadian rate on finished lumber being 25 per cent, and rough lumber free. Difficulty arises from invoices merely stating so many thousands of feet of "lumber" with no distinction as to whether finished or rough.

Reduction on autos to 10 per cent. from the previous countervailing rates of 30 and 40 per cent. will have little local application, and will only affect used cars, as no new cars are imported from Canada. Increases on oats, corn, butter, eggs and shoes, are also immaterial, as these articles are not imported from Canada.

Hoover Halts Soviet Plan

Negotiations For Building Bombing Planes Are Stopped

Baltimore.—Negotiations between the Soviet Government and the Glenn L. Martin Company, of Baltimore, for the manufacturing of 20 twin-engine bombing airplanes at a cost of approximately \$2,000,000 have just been halted by the Hoover administration, according to a despatch from Washington.

"The view of the precarious situation existing just across the Russian border in Afghanistan and India, where British planes have been bombing rebels," says the despatch, "and also in view of the somewhat strained political situation along the Polish border, it is believed in some quarters that the Hoover action was motivated by a desire not to place valuable war weapons in the hands of the Soviet Government."

Predicts Another War

Russian Commissioner Delivers His Periodic Warning Of Outbreak

Moscow, Russia.—Clement Voroshilov, commissar of war, has delivered one of his periodic warnings of the outbreak of another great war.

He said that the United States, Japan, Great Britain and France this year would spend 5,700,000,000 gold rubles (about \$2,850,000,000) on armaments compared to only 2,900,000,000 in 1913, and he interpreted that as indicating clearly that those countries are preparing intensively and rapidly for war.

Crowd Welcomes Bennett

Vancouver, B.C.—With banners of welcome to Hon. R. B. Bennett, as "Statesman With a Canada Policy," and with flags bearing the election pledges of the party, the Conservative rally opened recently, at the auditorium. The meeting was probably the largest in the election campaign of the Opposition chief.

REACTION TO THE NEW TARIFF LAW PASSED BY U. S.

Ottawa, Ont.—The signing of the new Hawley-Smoot tariff bill by President Hoover, in Washington, automatically brings into effect some twelve changes in the Canadian tariff as against United States. These are the items containing provisions for countervailing duties brought into effect in the Dominion budget of May 1 last. Some twenty items in the Canadian tariff contain the countervailing provisions, comprising 16 commodities. All of these are not further changed by the new U.S. bill as in some cases the new U.S. rate is the same as under the Fordney tariff. The principle of the countervailing duties is that the Canadian tariff will be as high on the particular article coming from another country as the rate that country levies against the same commodity entering from Canada. While the countervailing tariff in this country does not specify United States, the interchange of the same kind of goods between Canada and that country is much greater than between Canada and any other nation.

One of the most important changes with the bringing into effect of the Hawley-Smoot tariff and the consequent applications of the countervailing tariff by Canada, will be its effect on potatoes. The Canadian tariff on the United States for the fiscal year ended March 31 last, potatoes to the value of \$1,173,179. Potatoes went to United States from Canada under a tariff of 50c. per cwt. last year, and U.S. potatoes came into Canada free. Under the new tariff the barrier both ways will be 76 cents per hundred pounds.

Oats, cattle, meats, eggs and butter are also greatly affected by the new tariff wall.

A new tariff law was put into effect by the United States recently and international reaction to it was reflected in actual retaliation in kind by one or more of our countries by two others of measures of reprisal and condemnation from the press of several nations.

Automatically with the effectiveness of the 1,122 rates schedules contained in the Hawley-Smoot tariff bill, Canada's countervailing duties became operative, placing higher duties on a dozen commodities imported from the United States.

These duties, which were included in the government's May 1 budget, are applied on the principle that the Canadian tariff shall be as high on certain articles coming from other countries as the rates those countries levy against the same commodities from Canada.

The Belgian cabinet discussed the new law and then decided that any retaliatory measures should await conferences with other European countries; the Spanish government studied the request that it break the existing modus vivendi with the United States as a protest.

In Havana, the newspaper "El Mundo," attacking the new tariff law as unjust, said it will destroy the friendship between Cuba and the United States.

The Paris Petit Bleu advocates boycotting of United States products in France.

Il Tevere, of Rome, said the tariff "is the ultimate manifestation of the economic imperialism of the United States."

Was Prominent Grain Man

Montreal, Que.—A. F. Stuart, president of the British Empire Grain Company, and a member of the Montreal Corn Exchange, died here recently, aged 80. Mr. Stuart was born in Plymouth, England, and came to Canada in 1870, to become a private banker in Detroit, Manitoba. Later he entered the grain business in Winnipeg, moving eventually to New York, London, England, and finally to Montreal. He is survived by his widow, one son and three daughters.

Saskatchewan Highways

Saskatoon, Sask.—Before the snow flies again, the provincial highways department expects to have completed and in fact has, gravel roadways from Lloydminster, via Saskatoon to the Yorkton, and from Moose Jaw, via this city, to Prince Albert National Park.

A remarkable example of bravery and quick thinking has been rewarded recently in the citation of Engineer H. J. Storey, Brookmere, B.C. (left), and Fireman A. Fulkerson, Pentstemon, for 10 merit marks, Canadian Pacific Railway recognition of conspicuous merit.

These two men while driving engine No. 570 at Hope, B.C., found grates dislodged from the grate carrier. Though the engine was under a full head of steam, they dumped the fire and taking turns in the task entered the red-hot fire box and worked until they replaced the grates and connected up all operating rods. Only a few inches from the scorching side of the firebox, they found the heat intense and one man would replace the other after a minute's work. They brought their train to destination only a few minutes behind scheduled time, saving a serious delay.

A Hair-Raising Story.

Henry Kuhl, of the Spruce Grove district, had Dr Detbelfs before Magistrate Primrose on Tuesday last, on the charge of theft. It appears that last October Henry gave the Doctor \$24 for a bottle of hair restorer. The Doctor was to send to Germany for the hirsute treatment dope. After what was considered a reasonable wait, Henry, who is said to be bald, inquired for the paid-for bottle, but the Doctor informed him the delay was caused by the necessity of dealing thru Sweden. After Henry's patience had become exhausted, he complained to the Police, hence the Doctor's appearance in Court on a charge of theft. After hearing the evidence (most of it coming thru an interpreter) the Magistrate dismissed the case, saying it was a matter for the civil courts.

Free, Poplar Poles. for hauling them away or piling them on the breaking. B C McLaughlin, phone 972-5123.

For Sale, 3 flat bottom rowboats with oars and oarlocks, \$8 each. J. A. Barrie. 13np

28—Election Day.

Stony Plain and District.

Tuesday next, July 1st, is a public holiday. All business places in Stony Plain will be closed.

Mr Frank Thill, of Aberdeen, Sask., was a visitor this week with Mr T. Graden. Mr Thill was a former resident of this district, and has just returned from a trip thru Peace River district.

Mr and Mrs Philip Ties, of Los Angeles, Calif., are here, visiting Mr Ties' parents. The latter will accompany Philip and his wife when they return home.

Mrs Violet Sharp (nee Barrie) from Vancouver, is visiting here with her parents, Mr and Mrs J. A. Barrie.

Several of her Inga neighbors who visited Mrs Willie at the Sanatorium near Calgary last week, say she is much improved in health.

Herb Wolfe, who spent a short vacation at his home here, has returned to his position in the bank at Turner Valley.

Mr Hans Jespersen, who had been visiting here with Mr Andrew Jespersen, has returned to his home in South Dakota.

The wedding bells are said to be ready to ring for a Comet belle, tomorrow night. Sunday next, the 29th, will be a big day at St. Matthew's Church (Missouri Synod), when the school pupils will hold a Kinderfest. The new Walther League Band will be present.

In the early hours of Friday morning last two business places in Stony Plain were entered by thieves; in one place by breaking the latch of a window, and at the other by forcing a door. Goods were taken on one place, and a small sum of money at the other.

Off with the old Black Rims; on with the new White or Yellow Gold. Do you know that the black frames are out of date, and that white is the proper thing in spectacle wear? Be up-to-date and see M. Macklenburg, the well-known Edmonton Optician, at the Royal Hotel, Stony Plain, on Thursday, August 7th. 10170 101st St., Edmonton. Phones 1072 & 2946.

Going West—Every day except Sun., at 22.28; every midnight at 24.04.

Spruce Grove News

A number of residents of this district were in Edmonton on Sunday last, to help celebrate the festival of St. Jean Baptiste. There was a morning service at St. Joachim's church; a picnic in the afternoon; and a concert at Pantages in the evening.

In the early hours of Thursday last some broke into the premises of the Spruce Grove Hardware by breaking the door window and slipping the latch. Cash in the till to the amount of \$30 was taken. La Perle's store at Winterburn is said to have been burgled the same morning.

The local Scout athletes are practising their stunts regularly, in preparation for the competitions at Winterburn next Tuesday.

Capt. Gibson made his annual trip to Jasper Lodge this week.

The Winterburn Community Club will be holding its annual Dominion Day picnic on Tuesday next, July 1st. The program comprises a series of sporting events, from baseball to horse racing.

Mr and Mrs A. Schoep returned Saturday from their motor trip to Banff. They report having had a good time.

The Ladies Aid of the United church held a strawberry social and concert last evening.

The local Liberal Primary was held here Monday evening, with Wm McLeod in the chair. The delegates to the nominating convention in Edmonton tonight are: William McLeod and Mr Forbes.

Here and There

(543)
Three months of hard labor which included the levelling of 21 acres of rolling waste land and the laying of approximately 12 miles of new track, terminated June 5 when the Canadian Pacific Railway finished the construction of "Pea City," Toronto, for the accommodation of the huge army of Shriners who held their convention in that city recently.

Lake Minnewanka, famous shoot of water in the Canadian Rockies, not far from Banff, has entered angling history with the capture recently of the largest trout ever taken from the lake. It weighed 40 lbs., 8 ounces and was 41 inches in length and 32 inches in girth. It has been stuffed and is now in the Banff museum.

The immensity of the progress made and the almost boundless prosperity he sees ahead for Canada has brought home to him the great need for the awakening of England to a better understanding of the Dominion, was the statement made recently by Major L. A. M. Jones, economic supplement editor of the Morning Post, London, England, who is making a several months tour of Canada studying conditions here.

During the course of the forthcoming World Power Conference to be held in Berlin, Germany, June 26, C. Lefebvre, delegate to Canada, will propose that the next convention shall be held in Canada in view of the rapid strides made in matters electrical by the Dominion. Mr. Lefebvre sailed for Europe recently on board S.S. Empress of France.

June 2 saw the furnishings of the new central tower extension of the Royal York Hotel, Toronto, completed. Altogether there are 123 guest rooms in this wing, including six period suites, art moderne, flower, Dutch and Tudor. The Royal York is the largest hotel in the British Empire and with this addition numbers 1,156 rooms.

Fenwick Saunders, riding his bicycle at Tuskent, N.S., recently, saw a salmon disporting itself in shallow water near Tuskent Dam. He crept cautiously up, grabbed the fish which almost escaped, dragging him into deep water, but although out of his depth, succeeded finally in getting a 10-pounder fish safely ashore.

Radio continues to advance in popular favor in Canada. At the end of March, 1929, there were 423,557 radio receiving licenses issued by the Canadian Government radio branch of the Department of Marine, compared with 296,926 on March 31, 1928, an increase of 126,631 in the 12 months.

The number of motor vehicles registered in Canada during 1929 was 1,192,889, an increase over the 1928 registration of 117,070 or 10.3 per cent. This was an average of one motor vehicle to each 8.2 persons. Canada ranks third among the countries of the world in the number of automobiles in proportion to the population.

CHAPTER XVII.—Continued.

"You on a vacation?" questioned Grandma with a smile.

"Not so's you'd notice it," replied Jim, taking what Grandma called "the visitor's chair," and throwing his hat onto the table. "I've been to Eastboro on business, and as George K. Doesn't expect me back till after lunch, I thought I'd pass the time of day with you. How's everything?"

You mean Charman?" queried Grandma astutely.

"You'd have made a first rate detective, Grandma," was Jim's retort; and the old lady laughed.

"Well," she responded, "the last I saw of 'everything' was when she left for school. The doctor offered to take her in his car, but she said she wanted to walk so I suspected she had something on her mind."

"What?" asked Jim, and added with caution, "Something to do with school?"

"My idea was," answered the old lady, "that it was something to do with you, Jim."

"Me?"

"Yes," said Grandma. "Maybe I'm all wrong, sonny, but I thought she was feeling sort of hurt that you never told her, when you were riding yesterday, that you and your mother were going to California."

"I meant to," explained Jim, "but my mind got taken up with other things. Then, too, I didn't know that Uncle George was going to blab so soon. Not that I care, because Mother's going to tell Lizzie Baker this morning and ask her to do some sewing for her before we start. Besides, I knew it didn't make much difference to Charman whether I was in California or Timbuctoo."

"I don't know why you should say that, Jimmy. You haven't got a better friend in town than my girl is—unless it's me."

Jim's young eyes looked suddenly weary, and his mouth grim.

"It's something more than friendship that I want from Charman, Grandma. No use pretending, is it—to you anyway? And it's plain to see that she's giving the thing I want to some one else. Why should she care whether I go West or not?"

Grandma looked out of the window for a moment, but seeing nothing to comment upon, turned back to Jim.

"I presume you mean she's falling in love with Doctor Carter?"

Jim nodded.

"I don't see as I like you saying that,

Corns

INSTANT relief!

PUTNAM'S Corn Extractor

was dying, Jim. He knew better than any one else knew, how your mother was going to miss him; and all he wanted was that you should help her over the hard siding, not that you should bury yourself in the drifts for her sake. I'm an old woman, Jimmy. My time's not far away, and I know how folks feel about such things. You see, you've been obeying the letter of that promise, not its spirit, which your father meant you to obey."

"You believe that — honestly, Grandma?"

"Implicitly, son," said Grandma Davis.

Jim arose and patted her shoulder clumsily.

"You've helped me a lot," he said. "It would be a pity if I couldn't, with seventy-eight years behind me!" she answered, smiling up at him. "And don't worry about Charman's misunderstanding you. I'll make her see."

"But not till we've gone, please," said Jim, reaching for his hat.

"That's for you to say, Jim. When are you going?"

"Within a fortnight. The doctor wants Mother to get away before cold weather. It'll be some change from Wickfield, Grandma!"

"It'll do you good, maybe, you'll meet some of those movie vampires and fall before 'em."

Jim laughed. It was what Grandma wanted and was working for; but she added wistfully as he reached the door: "I'm going to miss you, Jimmy."

"And believe me, I'm going to miss you," he responded warmly as he turned away.

CHAPTER XVIII.

The Bennetts had been gone a month. Their big house facing the common, which had been Sarah Bennett's pride for thirty years, was closed for the first time in its existence, the shining plate glass windows boarded over because, Jim told his mother, boys are the same from one generation to another—and a windowpane in an empty house is a source of irresistible temptation. Coming from the library one Saturday afternoon, Charman passed to look up at its grim coldness, thinking that the house seemed hardly more forbidding now than in the days when the front shades were relentlessly pulled down to keep a ray of sun from penetrating the gloom within, and, possibly, fading the precious parlor carpet that had come from Boston when Sarah was a bride.

Only the iron dogs that guarded the big front door looked different. They seemed, thought the girl whimsically, forlorn, and patiently unhappy, with drizzle of snow on their hooves and between their ears. Jim, she remembered, had always kept them brushed clean of snow. They had been his playmates, and Charman's Tower and Mouse, they called them. How many miles, she wondered, had she and Jimmy ridden those iron steeds.

She was moving on but at a sudden impulse turned about, and going up the path to the patient cabin, brushed off the light snow with a mittened hand. Then, glancing stealthily around and seeing no one, she reached out hastily and gave them each a pat. Jim had once told her in a burst of half-shamed confidence that he patted them every morning when he went to work! Together they had laughed at the idea; but Charman did not laugh now. Indeed, it seemed to her as she regained the sidewalk and glanced back at them, that the dogs looked more cheerful. She could, indeed, almost hear the thump of two hard, metallic tails!

She was moving on but at a sudden impulse turned about, and going up the path to the patient cabin, brushed off the light snow with a mittened hand. "Going my way?"

Charman turned, startled. The old doctor's shabby car had drawn up beside her, and he was leaning forward, an invitation in his kindly eyes.

"I was going home," she answered, "loaded with Sunday reading matter, you see; but if you don't be gone too long I'd adore a ride."

The old man beamed with pleasure. "And I'd adore your company, my dear. Reach in behind for my old cape, and wrap it 'round you. There are colds about this time of year without adding to the number, and that coat of yours is none too warm a day like this."

"You're right," said the girl, dragging the worn old cape from the back seat, and smuggling into it. "I'm planning to go to Portland after Christmas and indulge in a new one, provided I can find a bargain. It's pretty cold on those early morning walks of mine, though John has been a trump about taking me in his car on the worst days."

To Be Continued.

BACKWARD BABIES

Thrive After Use Of Baby's Own Tablets

Derangements of the digestive organs are responsible for most of the ailments that afflict young children and keep them backward in development. Baby's Own Tablets regulate the stomach and bowels, restoring them to normal action and this is all that is necessary to set the little sufferer safely on the road to health and happiness.

Baby's Own Tablets are specially designed to correct indigestion, constipation, colic; break up colds and simple fevers and to allay teething pain. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Girl Chooses Novel

Engagement Gift

Every Blind Person in Her Home County Will Receive Radio Set

A man who recently became engaged to a Gloucestershire girl asked her to choose something as an engagement gift. The result of her choice is that every blind person in the county who is without a wireless set will be given one. The total cost will amount to about \$50,000. The gift includes the cost of maintaining the sets. The donor does not desire the identity of his fiancée or himself to be revealed.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powder, a most effective vermifuge. It is absorbed in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

An Extraordinary Experience

Wife Of English Peer Talked To Him From Mid-Atlantic

An extraordinary experience befell Lord Brecknock at the Aldwych Theatre, London, England. He was sitting coolly in the stalls with a small party, when a theatre attendant approached him and said "Mid-Atlantic wants you." Scarcely understanding what it was all about, he suffered himself to be led to the telephone and spoke to Lady Brecknock, who had called him from the "Majestic" with as much ease and lack of trouble as if he was making a local call. It is a proof of the efficiency of the telephone service that he was located at the theatre in question within four minutes of the call having been put in at his house in London.

Has Kye For Detail

Recent biographies of Queen Mary have failed to mention one of her most striking characteristics. She has the unusual gift of what is called "the photographic eye." She never forgets the arrangement of room, and after a lapse of years will remember that the position of some article of furniture has been changed or that something has been removed.

The eastern two-thirds of New Guinea, the largest island in the world, is largely unexplored.

The word "villain" originally meant "villager."

Minard's for Insect Bites.

WRIGLEY'S

Alertness scores everywhere. Wrigley's creates pep and energy and keeps you alert.

A 5¢ package may save you from going to sleep at the wheel of your car.

Little Helps For This Week

"Thou shalt give unto the Lord thy God according as the Lord thy God hath blessed thee."—Deut. xvi. 10.

For the best that thou canst be in the service of God.

The Almighty, in His providence, does not ask of us uniform restraints on our rights and lives, as earthly landlords sometimes do. He only asks for the faithful use of the talent entrusted to us. The taxes of Heaven are never per capita, but always pro rata. Not the form observance of each and all alike, but every heart's desire, every hand's readiest service. Not the number of acres you till, but the quality of your tilling determines the profit of the harvest in spiritual as well as material farming. This standard exacts no promises, but it accepts no apologies; for there is no occasion for apology when you have done all you can.—Jenkin Lloyd Jones.

Unless worms be expelled from the system, no child can be healthy. Mother Gravel Worm Exterminator is an excellent medicine to destroy worms.

She (somewhat foggy on musical matters)—"Is Bach composing much now?"

He—"No, madam, he's decomposing."

Minard's for Falling Hair.

Leads In Export

"Canada exports more manufactured goods per head of population than any other country in the world," says the Farmer's Sun. "The figures are: 'Canada, \$64.80; Great Britain, \$50.80; Germany, \$32.85; France, \$30.58; and the United States \$25.13.'"

Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's Vegetable Compound

Small text at the bottom of the advertisement.

Edmonton Beach.

The baseball teams which will compete at the Beach on Dominion Day are 2 from the Intermediate League at Edmonton—Dairy Pool and the Tigers.

The Big Parade at the Beach on Dominion Day will be a spectacular one. Not only pupils and teachers, but the public are invited to enter a float, a car or vehicle of any kind that they may wish to decorate.

The gathering of the school teachers last week was a very interesting affair. Many new ideas were exchanged, resulting in a most satisfactory program for July 1st.

Mr Barrie hopes there will be numerous entries in the competition for the bag of flour which goes to the parents with the largest family at the Beach on July 1st.

The Misses Moore & Wele are sure pleasing the public with the finest cats, and these are so reasonable in price.

Mr Barrie reports the sale of 2 lots to Edward E. Webber: 1 to Geo. Baldwin, 1 to Mr F. T. Pinnell, which goes to prove the growing popularity of this Beach.

The waltz contest which is pulled off every Wed. night is growing very keen. The prizes are, a lady's traveling trunk suit case and a gent's \$11.50 pen & pencil.

A shipment of 250,000 pickerel fry from Lesser Slave Lake hatchery has been received and deposited in Cottage Lake.

The Domestic Animals Act (Municipalities).

Sale and Redemption of Impounded Animals (Sec. 48.)

Notice is hereby given under section 48 of The Domestic Animals Act (Municipalities) that 1 Black gelding, white star in forehead, weight 1300 pounds, shod in front, was impounded in the pound kept by Jos. Kulak, Stony Plain, located on the L.E. 26-52-15. On Monday, the 2nd day of June, 1930, and that the said animal was sold on the thirteenth day of June, 1930, to Frederick Tykalo, of Stony Plain, and that the said animal may be redeemed by the owner or his behalf within a period of thirty days from the publication of this notice in the Alberta Gazette, upon payment of all fees and costs due to the Municipality and the purchaser of said animal.

For information apply to the undersigned.

E. H. PIDGEON,
Sec.-Treas. of the Municipality of Inga No. 520.

Post Office, Stony Plain.

Sporting Notes

Fart Sask's ball team engaged the local ball tossers at the ball park on the afternoon of June 22. Stony's team was in good form, and was ahead of the game up to the 7th inning by a good margin, when a series of mishaps allowed the Forters to forge ahead, and they kept the lead to the end. Fort 8 runs, Stony 6 runs. Stony battery: Enders & Lory.

The ball game at the Beach on Sunday afternoon between Winterburn Nine and Rosenthal Nine resulted in a win for the latter by 9 runs to 6.

Onoway's ball team played Stony Seniors Monday night, on the local diamond. Those who attended seen a very good game, with the local team winning by 8 runs to 5. W. Rosnan and C. J. Lory was the Stony battery.

Stony's baseball team ain't agoin' to lose any games this season, so Bill Bonser says. Bill joined the aggregation this week.

The first game in the play off for the championship in the Basketball league was played on Sunday at Garden Valley, and resulted in a win for G.V. boys by a score of 17 to 15. Onlookers say this was the best game played this season. The Girls' contest resulted in a tie—8 all.

The Basketball League are holding their annual banquet this evening, at the Christie Cafe.

Bright Bank Briefs

The weather man has been good to us in this district so far, and the crops are looking fine.

Fish are biting pretty good in the Lake at present. A 17 pound jackfish was taken recently by a local fisherman, after a hard struggle.

Mr McLellan was in the district interviewing men with experience about the manufacture of brick. It is possible a brick kiln will be in operation here soon.

Your correspondent has just learned that a local politician who was getting a late lunch for himself on Election night let the can-opener slip and cut himself in the pastr.

Big Jim is quite elated as a result of the election, and is prepared to move to the City so soon as a Government position there is ready for him.

Cheer up! there'll be another election soon!

A local farmer, formerly an auto mechanic in Berlin, Germany, has just received word that a Reichskartel von Spitz-envaerbaenden der Kraftfahr-zeugwirtschaft has been organized in that country.

Duffield Doings.

The funeral took place on Friday last of the wife of Mrs D. H. Lent, who had passed away in an Edmonton hospital. The service was conducted by Rev. Sutton of Wabamun. She is survived by her husband; 4 sons, Louis, Roy, David, Arba; 7 daughters, Mrs D. McDonald, Mrs A. Dennill, Mrs G. Duncan, Mrs E. Woolard, Mrs A. M. Duncan, and the Misses Ada and Jennie; also one brother Mr F. J. Francey.

The secretary of Duffield S. D. is advertising for a teacher, up to grade 8; no students need apply.

Notes of the Elections

The Hon Chas Stewart is billed to speak in Stony Plain some evening next week.

A Liberal Primary for West Edmonton Riding was held in the town hall Monday night, with Dr Oatway in the chair. Messrs G. J. Bryan and O. G. Wudel were elected delegates to the nominating convention to be held in Wesley United church, in Edmonton, to-night, June 26. Gus Zucht and J. A. Willis are alternates.

A well-attended meeting was held on Monday in Moose Hall in the interests of Col Jamieson, the Conservative candidate. Mr Joe Asair gave an address, as also did the candidate.

At the Stony Plain U. F. Local meeting tonight delegates to the Onoway nominating convention on Saturday will be elected.

H. J. Woodley and H. J. McDonald are delegates to the Onoway Convention from Holburn U. F. A. Local.

During the next few weeks when a man gets mad at his wife he will be able to go to a political meeting and bawl out the speaker, say The Edison Signal.

TENDERS FOR RENOVATING SCHOOLHOUSE.

SEALED TENDERS will be received by the Board of Trustees of Smithfield School District No. 1307 at the office of the Secretary Treasurer up to 25th June, 1930, for the following contracts—

1st. Placing concrete foundation under School House.

2nd. Re-siding, altering position of windows, and building addition to porch.

3rd. Painting inside and outside of School.

All work to be completed by 25th August, 1930. Further information can be obtained from the Secretary Treasurer. The lowest or any tender not necessarily accepted.

JOS. BEST, Secretary,
Duffield.
Nearest Station, Duffield, 3 1-2 miles distant.

School is situate on main Highway. N. E. Sec. 10, Twp. 53, Rge. 3, W. 5th Mer.

A Golf Course in the Clouds

Itself a mile above sea-level and rising by a mountain rising another mile into the air, the 18-hole golf course of the Banff Springs Hotel in the Canadian Rockies is probably unique among the world's outstanding links. Its hazards are unparalleled and as an example there is the drive from the first tee over the foaming waters of the Spray River, shown in above lay-out. The golf and luxurious hotels on the continent are now at the disposal of guests.
